

Gleb Dvoryatkin

Product Designer

Novi Sad, Serbia · [email] · [telegram] · [portfolio]

Product designer for complex, data-dense products, with a decade in marketing, research, and project management before UX. I frame the business problem and design the interface that solves it, not just style the screens.

EXPERIENCE

Axon Trade · Product Designer, Marketing Generalist

Apr 2018 - Present

Technology provider for the institutional crypto market. Led all marketing until 2021, then moved fully into product design.

- Sole product designer across three client platforms and two in-house tools (NDA): order flow, market data, internal operations.
- Made the product suite white-label-ready, supporting the company's 2023 move into licensed solutions.
- Redesigned the marketing site; the rebuild lifted Lighthouse performance from 26 to 91.

Naoma · Product Designer

Jun 2024 - Jan 2025

AI sales-analytics platform; worked with engineers from Amazon, Yandex, Aviasales, and Delivery Hero.

- Reframed the product from a call-quality tool into a sales-performance platform; designed the four core surfaces (dashboard, call scoring, insights, AI coaching).
- Ran a 60+ competitor teardown to find the positioning gap and shape product strategy.
- Interface work contributed to the first paying customers and initial funding. By Dec 2024: 16 qualified leads (~\$200K potential ARR), 8 pilots analyzing 50K+ calls, 2 closed deals.

OilCase · UX/UI Designer

Oct 2021 - Jun 2024

Educational IT products for the oil and gas industry.

- Led an audit-driven redesign of OilCase X (field-management simulator); the refreshed product helped close the first major B2B client.
- Built a shared UI kit for the whole ecosystem, cutting design inconsistency and speeding up development.
- Owned IA and 50+ screens for the courses back-office across two roles, with full edge-case coverage, shipped to engineering as documented spec.

June Homes · Head of Property Listing & Data Department

Nov 2019 - Oct 2021

Tech-driven US apartment-rental service.

- Led a team of data managers; expanded platform presence from 7 to 25 with no added ad spend.
- Restructured process and budgeting: 3x leads, 3x paying customers, and 2x lower CPA.

Standuply · UX Researcher, Head of Customer Success

Nov 2015 - Oct 2017

Stand-up bot for Slack and Microsoft Teams; clients included IBM, Intel, Adobe, and Coursera.

- Built Customer Success from scratch and ran the research that shaped early product direction: 80+ user interviews, user churn down 20%.
- Product Hunt launches drove 500 upvotes in a single day and a 25% lift in registrations.

EDUCATION

Tomsk State University of Control Systems and Radioelectronics · MSc, Innovative Industries Management (2011)

State University of New York, Empire State College · BBA (2014)

COURSES

Product Design, Formfactor (2024). Mentors: Senior Product Designer at JetBrains; Head of Design at Bereke Bank.
